

Project Quotation – Luxury Interior Platform & Interactive 3D Showroom

Date: September 21, 2026
Client: Luxury Interior Design Studio
Prepared By: Abhinay (TaskAura Global)
Validity: 30 days from issue date

1. Project Overview

An ultra-luxury architectural web platform inspired by the international **ICG Galleries** spatial showcase. The platform features an interactive 3D virtual showroom with drag-to-explore navigation, interactive material/design hotspot pins, slide-out specification drawers, room/floor selectors, fluid GSAP scroll physics, an AI spatial consultation advisor, and automated lead capture.

Technology Stack: Three.js / WebGL / Pannellum, Next.js (React), GSAP & Lenis Smooth Scroll, Tailwind CSS, OpenAI API, Webhook Automation (WhatsApp & CRM).

2. Scope of Work

A. ICG-Inspired Interactive 3D Spatial Showroom

#	Feature	Description
1	Interactive 3D / 360° Canvas	Drag or scroll to look around and explore the showroom space with smooth camera damping and inertia physics
2	Interactive Hotspot Pins	Clickable eye/pulse pins placed on architectural elements (Moodboards, Materials, Custom Furniture, Lighting)
3	Slide-Out Detail Drawers	Aside modal sliding in upon pin click showing high-res material textures, dimensions, finish options, and direct inquiry CTA
4	Multi-Floor / Room Switcher	Interactive selector enabling visitors to switch between spaces (e.g., Living Lounge, Penthouse Suite, Studio Floor)
5	Ambient Audio & Soundscapes	Toggable luxury background soundscape and subtle micro-interaction audio feedback

B. Editorial Landing Page (8–9 Core Sections)

#	Section	Description
6	Cinematic Hero	Editorial typography, ambient spatial lighting glow, 4K video reel, and consultation CTA
7	Studio Philosophy	Brand narrative, spatial aesthetics, awards, and craftsmanship philosophy presentation

B. Editorial Landing Page (Continued)

#	Section	Description
8	Curated Portfolio Showcase	Category filter (Residential, Commercial, Minimalist) with fluid scroll reveals and Before/After slider
9	AI Spatial Advisor	AI-powered consultation widget generating instant tailored aesthetic and moodboard suggestions based on client inputs
10	Services & Offerings	Turnkey Renovations, 3D Spatial Visualizations, Space Planning, and Bespoke Furniture Curation
11	Execution Blueprint	4-phase visual trajectory (Consultation → 3D Concept → Procurement → Handover)
12	Testimonials & Press	High-trust client feedback, verified homeowner reviews, and architectural press badges
13	Smart Lead Engine	Multi-step consultation form capturing room sizes, budget tier, and timeline with automated validation
14	Studio Global Footer	Studio coordinates, direct contacts, social channels, copyright notice, and smooth navigation anchors

C. Automation & Engineering Infrastructure

#	Feature	Description
15	GSAP & Lenis Smooth Scroll	60fps inertia scrolling, subtle parallax reveals, and zero cumulative layout shift (CLS)
16	Lead Webhook Automation	Zero-latency instant lead routing to Studio WhatsApp, Email (Resend), and Google Sheets CRM
17	Asset & WebGL Optimization	Compressed 3D textures, WebP/AVIF imagery, progressive asset loading, and 90+ Core Web Vitals

3. Deliverables

#	Deliverable	Details
1	Figma UI/UX System	Full high-fidelity prototype including landing page, 3D showroom controls, and aside modal layouts
2	Interactive 3D Showroom Module	Production-grade WebGL/Three.js spatial tour engine with pins, aside drawers, and floor selector
3	Complete Web Platform Code	Full Next.js / React source repository, modular components, and responsive front-end build
4	AI & Webhook Automation Setup	Integrated OpenAI consultation pipeline and live WhatsApp / CRM webhook routing
5	Deployment & 30-Day Support	Production deployment with custom domain, SSL, setup guide, and 30 days of warranty support

4. Pricing

Component	Estimated Cost (₹)
UI/UX Design & Architectural System (Figma Prototype, 8–9 sections + 3D Showroom UI)	₹ 15,000
ICG-Style Interactive 3D Spatial Showroom (WebGL/Three.js Canvas, Hotspots & Aside Drawers)	₹ 20,000
Front-End Engineering & GSAP Scroll Dynamics (8–9 bespoke editorial sections, sliders)	₹ 22,000
AI Spatial Advisor & Style Recommendation Pipeline (OpenAI API integration)	₹ 14,000
Lead Capture Form & Webhook Automation (Instant WhatsApp & Studio CRM Routing)	₹ 8,000
3D Asset Optimization, Core Web Vitals Hardening & Production Cloud Deployment	₹ 6,000
Total Project Investment	₹ 85,000

5. Timeline

Phase	Duration
UI/UX Design, Figma Wireframes & 3D Spatial Asset Preparation	2 days
Front-End Core & GSAP / Lenis Scroll Animation Engine	4 days
Interactive 3D Showroom Engine (WebGL, Hotspot Pins, Aside Modals)	5 days
AI Spatial Advisor Integration & Webhook Automation Pipeline	2 days
Performance Hardening, Cross-Browser Polish & Handover	2 days
Total Estimated	~15 working days

6. Terms & Conditions

- Payment Milestone:** 50% advance before project commencement, 30% upon approval of 3D Showroom & Alpha build, and 20% upon final delivery.
- Revisions:** Includes up to 2 rounds of design and spatial layout revisions post-delivery.
- Third-Party Accounts:** Domain, hosting, and any external third-party API usage fees are borne by the client.
- Hypercare Warranty:** Includes 30 calendar days of post-launch technical bug fixing, responsive adjustments, and performance monitoring.
- Intellectual Property & Copyright:** Upon 100% full payment settlement, **all source code, 3D interactive assets, design files, and complete intellectual property / copyright ownership will be fully and unconditionally transferred to the Client.** The developer retains only the non-exclusive privilege to present the finished work in their agency portfolio.
