

 Project Quotation – Luxury Interior Design Landing Page

Date: September 21, 2026
Client: Luxury Interior Design Studio
Prepared By: Abhinay (TaskAura Global)
Validity: 30 days from issue date

1. Project Overview

A bespoke, ultra-luxury landing page designed and developed for an interior design studio to showcase signature architectural projects with fluid scroll animations, interactive spatial exploration, automated lead capture, and an AI-powered consultation assistant.

Technology Stack: Next.js / Modern React, GSAP (ScrollTrigger), Lenis Smooth Scroll, Tailwind CSS, OpenAI API Integration, Webhook Automation (WhatsApp & CRM).

2. Scope of Work

Landing Page Sections (8–9 Core Sections)

#	Section	Description
1	Hero Section	Cinematic visual showcase, elegant typography, ambient lighting effect, 4K project reel background, and consultation CTA
2	Design Philosophy	Studio story, design principles, spatial aesthetics, and brand philosophy presentation
3	Portfolio Showcase	Curated gallery categorized by space (Residential, Commercial, Minimalist) with fluid scroll transitions and Before/After slider
4	AI Spatial Advisor	Interactive AI consultation widget where visitors select room dimensions, style, and budget to get instant tailored style recommendations
5	Services & Offerings	Detailed cards/accordions for Turnkey Interior, 3D Rendering, Space Planning, and Custom Furniture Curation

Landing Page Sections (Continued)

#	Section	Description
6	Execution Process	4-step visual workflow (Consultation → 3D Concept → Procurement → Final Handover)
7	Testimonials & Press	Client reviews, high-profile homeowner feedback, and media/architectural feature stamps
8	Smart Lead Form	Interactive inquiry form capturing budget tier, property size, and timeline with automated validation
9	Studio Footer	Studio location coordinates, social links, contact info, legal copyright, and smooth back-to-top

Interactive, AI & Technical Features

#	Feature	Description
10	Fluid Scroll Animations	GSAP & Lenis smooth inertia scrolling with parallax image reveals and zero layout shifts
11	AI Style Recommendation Engine	Automated prompt pipeline matching visitor inputs with the studio's design aesthetic library
12	Lead Automation & Webhook	Real-time instant lead notifications to WhatsApp, Email (Resend), and Google Sheets / CRM
13	Responsive UI/UX	100% pixel-perfect responsiveness across mobile, tablet, and ultra-wide displays
14	Performance & SEO Optimization	Next-gen WebP image compression, sub-second load times, and Google Schema markup

3. Deliverables

#	Deliverable	Details
1	Figma UI/UX Design	Complete interactive prototype and UI design system for desktop & mobile
2	Full Source Code	Clean, production-ready, modular Next.js / React repository
3	AI Integration & Webhook	Configured AI consultation prompt pipeline and automated lead dispatch to WhatsApp & CRM
4	Production Deployment	Live deployment on Vercel/Cloudflare with custom domain and SSL configuration
5	Documentation & Support	Setup guide, admin handover instructions, and 30 days post-launch warranty

4. Pricing

Component	Estimated Cost (₹)
UI/UX Design & Wireframing (Figma Luxury Prototype, 8–9 sections)	₹ 8,000
